

HEMOGRAM MIXERS

RMS-20

Haematology Sample Mixer

CE
2 years warranty
220 VAC 50 Hz

The RMS-20 features a spiral roller system that moves sample tubes in two directions at once — rotating around their own axis while travelling up and down along the tube — so that the blood sample and the EDTA inside the tube mix homogeneously without compromising sample integrity.

Product code: RMS-20

Key features

Spiral roller system

Tubes rotate around their own axis and travel along their length at the same time, mixing sample and EDTA homogeneously.

Automatic stop on entrapment

The unit stops immediately should the operator's hand become trapped while loading or removing tubes.

Quiet gear transmission

The gear system connected to the motor shaft is made from a wear-resistant special plastic to reduce noise.

Metal housing, stove-enamelled

The housing is metal, finished with a stove-enamelled instrument paint that prevents corrosion and reduces paint wear.

Technical specifications

Capacity	20 vacuum-free hemogram tubes with K3 EDTA (green cap), or 16 vacuum hemogram tubes with K3 EDTA
Motor type	AC motor with gearbox
Motor power	4 W
Motor speed	Fixed speed (15-30 rpm options)
Direction of rotation	Clockwise (fixed)
Operating voltage	220 VAC 50 Hz
Warranty	2 years
Certification	CE

Product description

The unit is designed to stop immediately should the operator's hand become trapped while loading or removing tubes.

The gear system connected to the motor shaft is manufactured from a wear-resistant special plastic to reduce noise. The rollers rotate in synchronisation with the clockwise motion of the motor through a dedicated gear transmission.

The housing is metal, finished with a stove-enamelled instrument paint that prevents corrosion and reduces paint wear.

The RMS-20 carries a 2 (two) year warranty against manufacturing and workmanship defects and holds CE certification.

Applications

- Haematology departments of hospitals and private laboratories
- Blood collection units and sample reception areas
- Sample preparation prior to haematology analysers

Quality and warranty

The RMS-20 carries a 2 years warranty against manufacturing and workmanship defects and holds CE certification. All units are designed and manufactured by Sistemmed.

Other models in the same range

RMS-30

40 vacuum-free hemogram tubes with K3 EDTA (green cap), or 30 vacuum hemogram tubes with K3 EDTA

ROTAMIX-30

20 vacuum hemogram tubes with K3 EDTA
