

HEMOGRAM MIXERS

ROTAMIX-30

Haematology Sample Mixer

CE
2 years warranty
220 VAC 50 Hz
5 rpm

The Rotamix-30 is designed so that blood samples mix homogeneously with the EDTA inside the tube while sample integrity is preserved. Tubes are placed on a circular platform inclined at 45°; they rotate around their own axis and, thanks to the incline, also travel up and down.

Product code: ROTAMIX-30

Technical specifications

Capacity	20 vacuum hemogram tubes with K3 EDTA
Motor type	AC motor with gearbox
Motor power	4 W
Motor speed	5 rpm
Direction of rotation	Clockwise (fixed)
Operating voltage	220 VAC 50 Hz
Warranty	2 years
Certification	CE

Product description

The gear system connected to the motor shaft is manufactured from a wear-resistant special plastic to reduce noise.

The housing is metal, finished with a stove-enamelled instrument paint that prevents corrosion and reduces paint wear.

The Rotamix-30 carries a 2 (two) year warranty against manufacturing and workmanship defects and holds CE certification.

Applications

- Haematology departments of hospitals and private laboratories
- Blood collection units and sample reception areas
- Sample preparation prior to haematology analysers

Quality and warranty

The ROTAMIX-30 carries a 2 years warranty against manufacturing and workmanship defects and holds CE certification. All units are designed and manufactured by Sistemmed.

Other models in the same range

RMS-20

20 vacuum-free hemogram tubes with K3 EDTA (green cap), or 16 vacuum hemogram tubes with K3 EDTA

RMS-30

40 vacuum-free hemogram tubes with K3 EDTA (green cap), or 30 vacuum hemogram tubes with K3 EDTA
